

NAME

Justin Garrison - Field CTO

SYNOPSIS`justin [OPTIONS] COMMAND [ARG...]`**DESCRIPTION**

`justin` is an advocate for user's success, system scale, and open-source. He works tirelessly to democratize technology for companies of all sizes. Uses his decades of experience to accelerate others' success.

HISTORY

- * Sidero Labs
 - Field CTO, 2024–present
Served in multiple roles including, Director of Developer Relations, Head of Product, and Field CTO. Interfaced with the community, wrote code, improved products, and made sales. Led social media channels, documentation, and content strategies. Created product roadmap and built foundation for regulated environment usage including air-gapped and governments. Sales engineer for high value prospects.
- * Amazon Web Services
 - Sr. Developer Advocate - Amazon Elastic Kubernetes Service, 2020–2024
Launched EKS Anywhere, AWS App Runner, and many other services and features. Built apps run by hundreds of thousands of developers, documentation read by tens of thousands of engineers a month, and workshops used by thousands of learners.
- * Disney Streaming Services
 - Sr. Software Engineer - Productivity Engineering, 2018–2020
Team lead for infrastructure in Amazon Web Services. Launched Disney+ in 5 territories from 0 to 50 million subscribers.
Made multiple streaming products resilient and scalable including Disney+ and ESPN+. Scaled container infrastructure and observability tooling in 4 regions and more than 50k containers.
- * Disney Feature Animation
 - Sr. Systems Engineer - Linux and Core Services, 2014–2018
Made Oscar winning movies. Managed render farm, servers, and core infrastructure. Specialized in container infrastructure, automation, and Linux performance tuning.
